

A wide-angle photograph of a modern laboratory. In the foreground, a woman in a white lab coat sits at a desk with a laptop, talking on a mobile phone. The desk is equipped with a laptop, a notebook, and several glass bottles. Above the desk are white shelves with various lab supplies. In the background, two other scientists in white lab coats are working at another desk. The laboratory has large windows on the right side, providing a view of a city skyline. The ceiling is white with recessed lighting. An orange rectangular box is overlaid on the right side of the image, containing the text '+ Science and Technology' in a white, handwritten-style font.

SVIGALS + PARTNERS

## Dream. Think. Do. Together.

We are Svigals + Partners, an award-winning architecture and art integration firm imagining a better future. We share with our clients a commitment to improving lives in education, science-tech, healthcare, and community-building. At the heart of our practice is the seamless blending of architecture, art, and storytelling designed to create experiences that nourish life. Our most successful projects emerge from close collaboration, and we hold dearly the belief all of us are smarter than any one of us.

## OUR VISION:

A compassionate world inspired to create a better future together.

## OUR MISSION:

To design artful solutions with passion and purpose, enriched by meaningful collaboration.

## Our Team

Svigals + Partners nurtures a creative, collaborative spirit. We believe in multi-functional teams working together to support shared knowledge, problem solving, learning, and risk taking. Ours is an open environment where people feel valued, heard, and connected to a larger purpose -- resulting in greater creativity and innovation.

We believe this team culture works in harmony with individuals developing chosen areas of expertise. As such, we have committed leaders for sustainability, technology, quality control, graphic design, and equity/diversity, among other disciplines.

Together, we form a whole. We practice gratitude and respect. We value asking over telling. Wondering over knowing. Let us share our experience with you creating the community to which we all aspire.

## Our Process

Svigals + Partners was founded to create environments where life is nourished by the experience of the architecture.

Our process aims to cultivate a collective sense of purpose. We begin by asking animating questions to understand your vision, mission, and experience -- from which priorities emerge. Sometimes this engagement process is a small, select group. Sometimes it's expansive, including a wide array of stakeholders. Our process is adaptable and customized to your uniqueness.

Immersed in what we've heard and seen, we begin to design. Always through the lens of opportunity, we look for sharp edges that need smoothing and solutions that need more thinking. We repeatedly ask ourselves how can the design better serve the person, the organization, and the world? Led by aims and aspirations, we pursue a meaningful contribution to the unique nature of each place and each community.

Unique to our process is the integration of architecture, art, and storytelling. Art has always been an essential part of human culture, and experiencing art calls us to the humanity we share. By incorporating art into architecture, we create a resonance that binds community together, inspiring all to be their best selves.

## Our Impact

Our clients are passionate about improving lives.

They are educators training tomorrow's leaders, biotech firms seeking cures, healthcare providers caring for old and young, and civic, cultural, corporate, and non-profit organizations serving communities.

Our client's mission is our mission, and we strive every day to create a better future together.
